Thank you!

Our mission is to support students throughout the Tyngsborough Public School District with innovative educational programs. In the past 10 years, EFT has donated over \$200,000 to bring interactive white boards, on-line educational programs and resources, computers, tablets, flexible and student friendly classroom furniture and equipment, and new art, STEM, language arts and health & fitness learning programs the schools and students would otherwise not have had.

If you have sponsored us in the past, we appreciate your support in helping us grant teachers' wishes for their classrooms and we hope we can count on you again. If you have not had the opportunity or ability to support EFT's mission in the past, we invite you to join our mission. Any amount you can provide is much appreciated.
